

INGRESS PROTECTION TESTING AND EXAMINATION CERTIFICATE

Equipment or Devices for use in Specific Application Environment

Ingress Protection Examination Certificate: C120208
Test Report: R120208
Applicant/Manufacturer: US Digital
Address: 1400 NE 136th Ave.
Vancouver, WA 98684
Equipment or Device Category: Enclosures, Electrical Equipment
Equipment or Device Model/Type: T7-1-232 (Rev. A & Rev. D)

This Equipment or device and any acceptable variation thereto are specified in the report to this certificate on the preceding 8 pages.

The Certification Services Certified that this equipment or device has been found to comply by "Type-Tests" for the Ingress Protection (IP) Requirements relating to the design and construction of the equipment submitted by Applicant to CertifiGroup.

Compliance has been established by testing under the requested Standard:

Testing Standard: IEC60529

Ingress Protection Code (IP Code) achieved by testing under the above Standard(s) for this Equipment or Device of the same design and construction shall be eligible to include the following marking:

"IP67" (Rev. A) & "IP68" (Rev. D)

This Certification Certificate may only be reproduced in its entirety and without any change.
